Custom made dreams

2020

Our story, your experience

Mega tekstil, d.o.o., a company from Slovenska Bistrica with its trademark **MEGAMOBIL** presents itself on the Slovenian market as a young company with a lot of knowledge, experience and expertise in the caravanning industry.

We strive towards custom solutions so you can feel at home while travelling. The redesigned **MEGAMOBIL** vans are exciting holiday vehicles with an advanced design and are custom made according to your wishes that transform mobility, travel, roaming and camping into an experience.

We want to raise caravanning in Slovenia to a new level, win over many new fans and provide high quality products and services to our existing fans.

Research and development

We are constantly developing innovative products with added value, which are all fruits of our knowledge and inspiration. All products are of high-quality and in the top of their product range, as our key success factors are knowledge and experience in the field of development

We are thinking about you

There is always something you would do your way in your camper. Our goal in **MEGAMOBIL** is to design a completely individual, custom made, dream camper, and to assemble it according to your suggestions and desires.

Ready for summer and winter

We guarantee the proper air temperature – not only in the summertime. With 25 mm thick **high-performance insulation** and **Truma combi heating system** your vehicle adapts to hot summer days, as well as cold winter nights.

Mega quality

We are present on the market under the brand name Megatekstil d.o.o., which produces top-quality products that compete with the biggest European manufacturers in efficiency and quality. All our employees are embedded in this process, as our business goal is to systematically approach our customers and offer a variety of solutions for every individual customer.
